

## Corrigendum to the Czech NFAP

25.05.2020

Page 5, Section 1.1, last sentence reads:

„Czech Republic does not intend to use the ND provision and hence no background level is estimated and/or included in FRL (ref. to Annex VI of the LULUCF Regulation). “

This text should correctly read as:

„Czech Republic will consider using the ND provision once the relevant data become available. “
